

AIPIA- the International Exposure

Since the last few years, All India Plastic Industries Association (AIPIA) has been taking keen interest in International Plastic scenario. On the initiative of our Organizing Secretary Shri Amrinder Singh Arora, visits to international fairs are being regularly organized. This is the best way, we feel, to keep ourselves abreast with international developments.

This year too, we took a visitor delegation to CHINAPLAS-2019 held at Guangzhou on May 21-24, 2019. After the K-Fair Germany, Chinaplas is the second largest plastic exhibition in the world. All the latest developments and technologies are on view here. It has indeed been an enriching experience for the visitors and the exhibitors alike.

Visiting the TAIWAN EXPO held at Pragati Maidan New Delhi was also a wonderful experience. Here also our association took a visitor delegation lead by our President Shri Parshotam Kumar. The President and Organizing Secretary had a fruitful discussion with the Hon'ble Ambassador Mr. Chung-Kwang Tien. Our association is committed to promote the cutting edge technology of various Taiwanese companies. They also congratulated the TAITRA Team for the informative and excellent show organized by them.
